

R403C_vs_Ctrl_D35 gobp Down

Dna Strand Elongation Involved In Dna Replication
 Negative Regulation Of Chromosome Segregation
 Regulation Of Mitotic Sister Chromatid Segregation
 Mitotic Sister Chromatid Separation
 Attachment Of Spindle Microtubules To Kinetochore
 Interstrand Cross Link Repair
 Chromosome Separation
 Regulation Of Sister Chromatid Segregation
 Regulation Of Chromosome Segregation
 Dna Unwinding Involved In Dna Replication
 Negative Regulation Of Chromosome Organization
 Cell Cycle Dna Replication
 Positive Regulation Of Double Strand Break Repair
 Sister Chromatid Segregation
 Mitotic Sister Chromatid Segregation
 Dna Templatd Dna Replication
 Recombinational Repair
 Positive Regulation Of Dna Repair
 Nuclear Chromosome Segregation
 Regulation Of Double Strand Break Repair
 Regulation Of Double Strand Break Repair Via Homologous Recombination
 Regulation Of Chromosome Organization
 Chromosome Segregation
 Double Strand Break Repair
 Regulation Of Dna Repair
 Dna Recombination
 Dna Conformation Change
 Dna Replication
 Heterochromatin Formation
 Negative Regulation Of Gene Expression Epigenetic
